

# Should I fix my car or replace it?

That's a great question! What will it cost me per month if I keep it?

Potential Repairs?	Estimated Cost	Estimated Cost
Battery	\$70 to \$90	\$
Brakes (Front)	\$100 to \$250	\$
Brakes (Rear)	\$100 to \$250	\$
Exhaust System	\$150 to \$450	\$
Fan Belts	\$50 to \$150	\$
Engine	\$2,000 to \$4,000	\$
Hoses	\$50 to \$150	\$
Head & Tail Lights	\$25 to \$100	\$
Paint Job	\$500 to \$2,500	\$
Struts or Shocks	\$200 to \$400	\$
Timing Belt	\$150 to \$250	\$
Tires (Front)	\$150 to \$400	\$
Tires (Rear)	\$150 to \$400	\$
Transmission	\$1,200 to \$3,500	\$
Tune-up	\$100 to \$300	\$
Water Pump	\$100 to \$250	\$
Windshield	\$200 to \$400	\$

Place the total cost of potential repairs here → \$

Now.....place the total of potential repairs in the white area on the left & divide by 12, 24, or 36 months.

Total cost of potential repairs \$  divided by 12 months = 's \$

Total cost of potential repairs \$  divided by 24 months = 's \$

Total cost of potential repairs \$  divided by 36 months = 's \$

Now compare monthly cost to repair \$  versus new car payments \$
